From The Prez

THE MONTEREY BAY IRIS SOCIETY is flourishing! As we move into the last weeks of 2007, we can look back upon a successful and enjoyable year. It included another top-notch show that engaged the local public, recognized several of our best iris growers, and developed the innovative artistic division. We also had a solid (if not spectacular) sale that placed irises in the hands of several Monterey Bay area gardeners and generated revenue for the MBIS, a fine picnic/raffle/auction, and a series of excellent meetings during which we broadened our horizons, deepened our knowledge and delighted in fine snacks.

We also developed practical experience with our new digital projector, and hopefully de-bugged the process. We do need a proper screen, however.

During the year, we also lost our long-time member, skilled grower and hybridizer, and great supporter of the MBIS, Lois Belardi. Rest in Peace.

Finally, we welcomed several new members during 2007, including several young members who are particularly welcome.

We are now heading toward our annual holiday dinner, which promises to wrap up the year in fine style and provide a good time for all.

Annual Holiday Dinner

Green Valley Grill

Friday December 21

Come at 6:00 P.M. for mixing and no host cocktails; dinner starts at 7:00 P.M. Club members pay \$15.00, non-members, \$30. Reservations are a must and have to be made by Monday, December 10th.

Directions

From highway one, from Santa Cruz, take the Main Street exit, and turn left at the first stoplight, onto Green Valley Road. At the second light, take a left, onto Penny Lane, (Spa Fitness Center is on Penny Lane, too, and if you get to Home Depot, you have gone one block too far). and Green Valley Grill is the first building on your right, UPSTAIRS.

From the south on Highway one, take the Green Valley Road exit, go three lights, turn left onto Penny lane (Spa Fitness Center is on Penny Lane, too, and if you get to Home Depot, you have gone one block too far). Green Valley Grill is UPSTAIRS on the second floor of the first building on your right, as you turn onto Penny Lane..

Congratulations to all members for your participation. Each and every one of us contributes to the success of the MBIS and the rewards of membership.

While we all have earned a pat on the back, we must also acknowledge the difficulties that AIS Region 14 has been experiencing. In earlier messages, I have mentioned the Region's budgetary issues, which are still unresolved. More recently, Regional Vice President Lynn Williams has voiced concern over the very low attendance at October's Fall Regional, and particularly the absence of almost all of the society presidents, who are the Region's directors. The MBIS board of directors will be discussing these issues in the near future, and will welcome your comments.

Meanwhile, let's all chip in our dues for 2008, enjoy our November meeting and celebrate the year at our Holiday party! ❁❁ Tom

CULTURE TIPS

NORMALLY WE GET THE HEAT from about mid-September to mid-October; then maybe some rain after that time. Once again, things get mixed up. Rain in significant amounts came in that period, and the heat at the end of the month. With these conditions, the winter weeds have gotten a head start. But with the later heat, it is easy to hoe them out. Once cleared of weeds, it is smart to use a pre-emergent. They are very effective at keep the weeds at bay all winter long. There are many brands out there. All are effective against the weeds on their label. Read it carefully and buy the brand that gets the majority of weeds that are residents in your garden.

Aphids make their appearance as the weather cools and before the onset of winter. They also hide in the folds of the leaves. Systemic insecticides will get those. One spraying now will get you through the winter.

This is the finally call to dig and replant Pacificas. With the rain we've had, they have just the right new root growth that should make transplanting very successful. ❁❁ Joe
